## New Product Release – January 2015

### Interstate-McBee Expands Caterpillar® Multiple Engine Line Offerings

#### C12 and C13

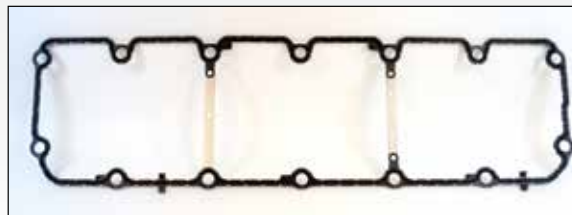

**Now available:** Crankshaft Seal Wear Sleeve for popular C12 and C13 engines. These wear sleeves allow for economical servicing of the front and rear seal surfaces of the crankshaft. These sleeves can be used with the standard C12 and C13 crankshaft seals available from Interstate-McBee. Contact our parts professionals for exact applications.

**M-9Y0821 Sleeve – Wear (Front)**  
**M-9Y0810 Sleeve – Wear (Rear)**

#### Caterpillar® C15

A new Isolation Seal for the Rocker Cover on late model C15 on Highway Truck engines is now available. This new Isolation Seal is found in late model C15 engines with ESN's beginning SDP1-Up and B5P1- Up. Be sure to follow recommended torquing procedures when installing this seal. Contact Interstate-McBee for additional information.

**M-3044925 Seal – Isolation**

#### Caterpillar® 3126 & C7

A new Exhaust Manifold Mounting Bolt is now available for Caterpillar® 3126 engine applications. The **M-1541582** Bolt is manufactured in the USA from high strength stainless steel alloy for superior strength and corrosion resistance.

## New Product Release – January 2015

### Caterpillar® C18

Piston Ring Sets are now available for popular C18 engine applications. These new rings incorporate the latest in piston ring design technology. The fire ring features stainless steel construction with advanced PVD plating on the wear face and Gas Nitriding on the side face for superior ring wear characteristics. The steel oil control ring is hard chrome plated on both the ID and OD surfaces for durability. Contact Interstate-McBee for exact applications.

**RSC18E** Ring Set - Piston  
**RSC18E1** Ring Set - Piston

### Caterpillar® C27 / C32

New replacement Camshaft Bushings are now in stock for Caterpillar® C27/C32 engine applications. Contact Interstate-McBee for exact applications.

**M-2255965** Sleeve – Bushing – Camshaft  
**M-2255966** Sleeve – Bushing – Camshaft

### Caterpillar® Sensor Additions

Three new Pressure Sensors are available for Caterpillar® engine applications. These new sensors are found in many on and off highway engine applications. Contact Interstate-McBee for details.

**M-1946722** Sensor Group – Pressure  
**M-1946724** Sensor Group – Pressure  
**M-1946725** Sensor Group – Pressure

## New Product Release – January 2015

### Navistar® 2010 Maxxforce® DT, 9 & 10 Cylinder Head Gasket Sets Available

We are pleased to offer two new Gasket Sets to our ever growing gasket set product line. Both sets contain the latest style Head Gasket & produced in the USA cylinder head bolts. The cylinder head bolts **M-1883133C1** are one time usage items and therefore new bolts are required each time a cylinder head is removed. Look to Interstate-McBee for the most current coverage of this very popular truck engine.

**M-1889321C92 Gasket Set – Cylinder Head**  
**M-1889322C91 Kit – Head Gasket & Bolts**

### DT466E Custom Interstate-McBee Lower Gasket Set Now Available

#### **MCB1874865C91 Lower Gasket Set - DT466E 1995-2003**

Customers speak and Interstate-McBee listens. This Custom Lower Gasket Set was developed after receiving customer requests for a more all-inclusive set. This Interstate-McBee Custom Gasket Set includes all the components contained in the OEM style kit as well as both front and rear crankshaft seals for more versatility and better value.

## New Product Release – January 2015

### Detroit Diesel® Series 60® Water Pump Rear Cover Replacement Kit

The **A-23538693** Water Pump Rear Cover Replacement Kit is designed to address Series 60® Water Pumps that have started leaking from the non-metallic rear cover area. The kit contains a new steel cover plate for added durability, o-ring seal and chamfered snap ring. This replacement can be performed on a Water Pump which is still installed on the engine, saving you and your customer valuable time and money.

**A-23538693** Water Pump Rear Cover Replacement Kit

### Expanded Coverage for Waukesha® VHP® Applications

Interstate-McBee is now producing gasket and seal kits for popular Waukesha® VHP® applications at the Cleveland manufacturing facility. These new sets contain the gaskets and seals needed to complete the installation of the water pump assembly on engines with cluster thermostat cooling. The **M-G-961-2** is used on 12 cylinder engines and the **M-G-961-1** is for use with 3521 engines.

**Gasket Set - Water Pump Mounting**
