## New Product Release March 2015

### Updated Cummins® ISX Engine Kit Coverage at Interstate-McBee

**M-4352286 Engine Kit – ISX1 & ISX2**

**M-4352287 Engine Kit – ISX3 & Signature**

**M-4352289 Engine Kit – ISX870 & ISX07 High HP**

**M-4352290 Engine Kit – ISX870 & ISX07**

While many manufacturers offer pistons which are not forged steel or do not have the latest skirt profile, Interstate-McBee is currently stocking the current generation of piston design that features a true forged steel piston with improved skirt profile and oil plate retention for durability in our ISX engine kits.

In addition to the forged pistons, each of these engine kits also include;

- Induction hardened Cylinder Liners containing proper bore surface finish
- Premium Piston Rings with the latest coatings for improved performance and oil control
- Interstate-McBee manufactured and assembled Gasket Sets
- Connecting Rod Bearings & Main Bearing Set
- Relief Valve

Receive quality and value Interstate-McBee ISX engine kits.

Interstate-McBee understands that in-chassis engine kits are not sufficient for all repairs, and as such, our product offering for this model has been expanded. Listed here are just some of the items from our line.

- Lower Gasket Sets as well as individual gaskets & seals
- Cylinder Head components
- Drilled Connecting Rods for engine upgrades
- Standard & Oversize Camshaft Bushings
- Lube Pumps & Oil Cooler Cores
- Water Pumps & Thermostats
- Engine Control Sensors

A convenient ISX model chart is shown on the next page. This chart illustrates both piston and engine kit progressions. QSX engine kits will be added to this matrix in the very near future.

## New Product Release March 2015

### Expanded Cummins® QSK45/60 High Horsepower Coverage

Now available from Interstate-McBee are standard and .25mm oversize Connecting Rod Bearings for QSK45 & QSK60 engines. First production to 2007 engines use angle split connecting rods and 2008 & up engines use newer style straight split connecting rods. The bearings and connecting rods cannot be intermixed within any unit. Contact an Interstate-McBee Customer Service Representative for details.

M-3636495 Rod Bearing-STD	Angle split type
M-3636496 Rod Bearing-.25mm	
M-3643984 Rod Bearing-STD	Straight split type
M-3643985 Rod Bearing-.25mm	

### Additional Cummins® Product Line Items from Interstate-McBee

Due to customer demand, Interstate-McBee has added increased coverage for the popular Cummins® Midrange and ISL/QSC engines. Contact Interstate-McBee for application and details.

**M-3966430 Camshaft – ISL8.9 & QSC8.3**

**M-3937555 Belt Tensioner Assembly B & C Series**

## New Product Release March 2015

### More Caterpillar® Product and Custom Kits

The **M-1948124** stainless steel Exhaust Port Sleeve listed below is now available at Interstate-McBee. This rectangular flange sleeve is common to the **3406C** engine model and should be replaced when performing a top end or complete engine overhaul. This item is not included in any gasket set, so Interstate-McBee has developed another Custom Hardware Kit and added it to our already very popular Hardware Kits listed in the table below. Each kit contains Port Sleeves, Studs, Spacers, Bolts, Washers and Locknuts. These “all in one” style kits add convenience in ordering and installation.

Interstate-McBee Custom Hardware Kits		
Model	Part #	Description
3406C	MCB3406CHKT	Hardware Kit
3406E & C15	MCB3406EHKT	Hardware Kit - non ACERT
C15	MCBC15HKT	Hardware Kit - ACERT

**M-1948124 - Exhaust Port Sleeve**

**MCB3406CHKT - Exhaust Hardware Kit**

All original names, numbers, symbols and descriptions are used for reference purposes only and do not imply that any part listed is the product of this manufacturer.

## New Product Release March 2015

### Custom Interstate-McBee Gasket Sets for Caterpillar® C9 Engines

Interstate-McBee has added to our ever growing line of Caterpillar® C9 Custom Gasket Sets. The additions listed below, like all of our Custom Gasket Sets, are assembled with quality components and system oriented packaging. Don't settle for a pile of gaskets and seals thrown into a box; purchase the industry leader in quality and usability. Contact Interstate-McBee for exact applications.

Part #	Type	ESN	Application/MSN
MCBC9051	Gasket Set – Major Overhaul	4ZF	12H/ 125, AMZ, CBK
MCBC9052	Gasket Set – Inframe Overhaul	THX	140M/ B9D, B9G, B9M, D9G
MCBC9053	Gasket Set – Cylinder Head	TXD	160M/ B9E, B9L, B9T, D9T
MCBC9061	Gasket Set – Major Overhaul	4ZF	627G/ CEZ, DBZ 637G/ CEL, CEM, DEX, DEY, DFJ
MCBC9062	Gasket Set – Inframe Overhaul	THX	
MCBC9063	Gasket Set – Cylinder Head	TXD	
MCBC9071	Gasket Set – Major Overhaul	S9L S9P	<b>Generator Set -</b> C9E, NBP, NGP, X3R
MCBC9072	Gasket Set – Inframe Overhaul		
MCBC9073	Gasket Set – Cylinder Head		

For more information about these and all the Custom Interstate-McBee Gasket Sets for Caterpillar® applications, download our catalog at [www.interstate-mcbee.com](http://www.interstate-mcbee.com)

## New Product Release March 2015

### Navistar® 2004 - 2009 DT466E Oversize Bearing Sets Available

In response to customer demand, Interstate-McBee has added oversized main bearings for the popular Navistar® 2004 - 2009 DT466E application. The larger bearings give you longer use and wear of the crankshaft to hold off costly replacement of the crankshaft.

Contact an Interstate-McBee Customer Service Representative for further details.

M-1842889C92	Main Bearing - .010"	M-1842890C92	Main Bearing - .020"
M-1842892C92	Main Bearing Thrust - .010"	M-1842893C92	Main Bearing Thrust - .020"

### Detroit Diesel® Series 60 Additions

#### A-23538840 Injector Tube - Stainless Steel

The **A-23538840** is a new Injector Tube and is a direct update from the previous A-23533148 part number. This stainless steel Injector Tube is for use on engines which utilize N3 injectors. You will need to order one **M-23533147 Tube Seal** for each tube replaced to ensure proper fit and seal.
