New Product Release – May 2015

Remanufactured Injectors for Caterpillar® C7 Engine Applications

R-10R4761 Injector

Remanufactured Fuel Injectors for Caterpillar® C7 Engine applications are now available from Interstate-McBee.

**R-10R4761
R-10R4762
R-10R4763**

Interstate-McBee remanufactured injectors include a new unique Trim Code engineered to ensure accurate fuel delivery, while maintaining power and efficiency.

Features and Benefits of Interstate-McBee Injectors Include:

1. A new *Unique* Trim Code for increased fuel efficiency and accuracy while reducing emissions.
2. A Trim Code CD with each injector. The new unique Trim Code must be entered into the engine ECM.
3. 100% surface lapping of critical components ensures pressure sealing of sub-assemblies.
4. Factory installed external o-rings for proper sealing.

New Product Release – May 2015

Interstate-McBee Helps Rebuilders Service ISX / QSX Cylinder Heads

When our customers talk, Interstate-McBee listens. We are introducing the **MCB7141 Injector Sleeve** as an alternative replacement for Cummins® ISX/QSX engine applications. The MCB7141 is a copper alloy injector repair sleeve for engine models prior to the 2010 HPCR (High Pressure Common Rail). This new sleeve can be used to replace the M-3680873 stainless steel sleeve in applications that have difficulty sealing in this area.

The new MCB7141 is used with the M-3678536 Seal Ring, which is sold separately.

MCB7141 Injector Sleeve

Additional Cummins® N14 Engine Kit Coverage at Interstate-McBee

| Oversize N14 Engine & Cylinder Kits | | | |
|-------------------------------------|------------|-----------|--------------|
| M-4955558 | Engine Kit | M-4955555 | Cylinder Kit |
| M-4955559 | Engine Kit | M-4955556 | Cylinder Kit |
| M-4955560 | Engine Kit | M-4955557 | Cylinder Kit |

Three new Engine Kits and Cylinder Kits have been added to our extensive N14 engine model coverage. The Engine and Cylinder Kits listed include the M-3065405 .020”-.040” Oversize Lower Press Fit Cylinder Liner. As the N14 engine population ages, the need for cylinder block rework increases. These new additions enable convenient, cost-effective component availability to service this popular engine.
