

# Reduced Our Fuel Cost By Over 10%

**John Smith, President of WV Central/  
Durbin & Greenbrier Valley Railroad says...**

“At the recommendation of our CMO, Roger Phillips, we replaced all the injectors in our entire fleet with Interstate’s Ecotip Green Tags. **Our fuel bills dropped by over 10%.** We didn’t make any other changes and our business remained constant so the fuel savings are definitely the result of a complete change-out using Interstate Ecotip Green Tag injectors”.

The patented Ecotip injector is available exclusively from Interstate-McBee and has been helping railroads like the WVC/Durbin & Greenbrier Valley achieve their mission statement goals every day. Lower emissions, fuel savings and achieving goals are all possible with the help of a full set of Ecotip Green Tag injectors from Interstate-McBee.

**ECOTIP® Superstack** used in multiple applications

**Serving the Railroad Industry with Quality Since 1947.**
