New Product Release April 2016

Additional Caterpillar® Engine Coverage Now Available

C7 & 3126B&E Oversized Cylinder Head Gasket

Interstate-McBee currently has available the optional cylinder head gasket for C7 and 3126B&E model engines. This quality gasket may be required when a cylinder block deck has been or needs to be machined. The greater thickness of the **M-2822474** allows for deck surface refreshing from .010" to .020" leading to a quick and economical solution to longer engine block life.

M-2822474 Cylinder Head Gasket – Oversized

3300 Engine Applications Front Crankshaft Seal Kit

M-3628853 Front Crankshaft Seal Kit

Interstate-McBee is now stocking the new **M-3628853 Front Crankshaft Seal**. This new seal incorporates a molded polymer coating on the outside surface to aid in sealing of the front housing cover of popular 3300 engine applications. The new seal can be found in Interstate-McBee custom gasket sets for 3300 Natural Gas applications.

Contact Interstate-McBee for exact applications.

"Quality without Compromise"

New Product Release April 2016

Additional Caterpillar® Engine Coverage Also Available C13 Applications Intake and Exhaust Valves

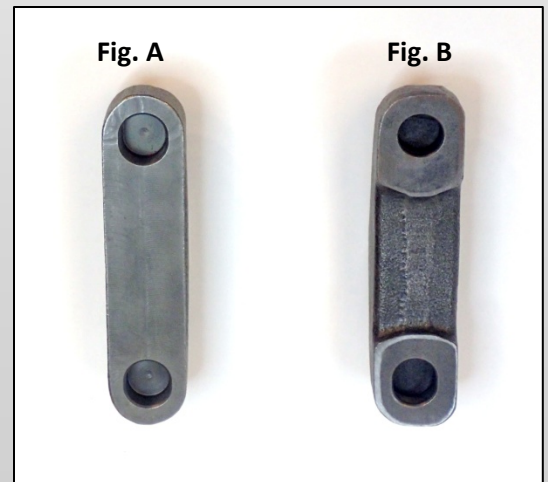

M-2527802 Intake Valve
M-2481467 Exhaust Valve

Interstate-McBee is pleased to announce expanded Caterpillar® engine parts coverage for C13 models. The **M-2527802 Intake Valve** and the **M-2481467 Exhaust Valve** feature high temperature chrome nickel alloy with seat hard facing for wear resistance. Both valves also contain additional hard chrome plated stems for superior wear and corrosion protection. When combined with our other C13 valve train components, these valves aid in your cylinder head rebuild needs.

C15 & C18 Application Valve Bridge

The **M-3633731 Valve Bridge** (Fig. A) is now available from Interstate-McBee. This is an optional replacement part which has a thinner profile and a non-scalloped bottom as compared to the M-3487743 (Fig. B). These changes allow for increased access for maintenance and setting the valve clearances.

M-3633731 Valve Bridge (Fig. A)

**Please note: Installation must be done in full engine sets only.

New Product Release April 2016

Cummins® ISX Additions from Interstate-McBee

M-3680410 Water Pump Cover

Interstate-McBee is currently stocking the **M-4090022 Water Pump Repair Kit** for ISX model engines. The kit contains a new **M-3680410 Water Pump Cover** made of heavy duty molded plastic to help reduce the overall weight of the pump and also includes the o-ring seals and a chamfered snap ring for easy installation.

Contact Interstate-McBee for further information and application.

M-4090022 Water Pump Repair Kit

Interstate-McBee is now assembling a new front gear cover gasket set for popular ISX engine applications. This custom gasket set incorporates the gaskets and seals needed when the front gear cover is removed from the engine for service or replacement.

Please contact our Customer Service Department for details.

The **M-4099095 Valve Stem Guide** is a component in GTA19 Natural Gas engine applications. The guide features a riffled or reamed barrel for less drag on the valve stem which leads to longer life. The guide is also machined to receive the M-4099093 Valve Stem Seal making for a secure connection and proper oil metering ensuring longer valve life.

New Product Release April 2016 Detroit Diesel® S60 Custom Gasket Set

Our customers request and we deliver, introducing the **MCBS60007 Front Cover Gasket Set** for Series 60 models. This custom gasket set contains all of the seals and gaskets necessary when replacing or servicing the front cover. Items include the front crankshaft seal, water pump mounting seals, camshaft seals, shock coupling, and the various other gaskets associated with the front cover. Each part is clearly labeled and packed in a convenient "all-in-one" gasket kit box.

MCBS60007 Front Cover Gasket Set

Detroit Diesel® DD15 Water Pumps Additions Now Available

A-A4722000401 Water Pump

In a continuing effort to offer the widest variety of engine parts for the most popular models, Interstate-McBee is now offering the **A-A4722000401 Water Pump** for the Detroit Diesel® DD15 applications. The pump is made from a corrosion resistant aluminum alloy for lighter weight which contributes to better overall fuel economy. The pump also includes the press in place seal for installation and because this is a new water pump and not a reman product, there is no messy core return or hassle.

Contact one of our knowledgeable Customer Service Representatives for more information.
