CATERPILLAR®

C-Series Camshafts

M-3327301

New camshafts are now available for popular Caterpillar® applications including C12 and C15 engines. These camshafts are designed and manufactured using the strictest quality and manufacturing standards. They feature induction hardened wear surfaces finished to provide superior performance. Precise timing and lift characteristics are measure using computer aided test equipment to ensure quality. Please contact Interstate-McBee for exact applications.

Part Number	Applications
M-3327301	3406E / C15 / C16
M-3330379	C12

CATERPILLAR®

C12 / C13 Pin and Roller Kits

M-2511005RK

Kit - Pin and Roller (Valve)

Also available for C12/C13 engine applications are pin and roller kits for servicing the camshaft followers. These new service kits provide economic replacement of the wear area of the camshaft followers. The rollers are precision machined from high strength bearing steel and hardened and tempered for durability. The surface finishes are fine ground to maintain proper geometry. The axel pins are produced from a manganese bronze alloy for superior wear resistance. Contact Interstate-McBee for exact applications.

M-2027475RK

Kit - Pin and Roller (Injector)

CATERPILLAR®

G3500 Series H Exhaust Seals

G3512H, G3516H exhaust manifold seals are now available for sealing the manifold segments and the exhaust manifold to head connection. These high temperature spiral wound seals are manufactured from high temperature alloy with oxidation resistant filler for superior stability at the high temperatures seen in these demanding applications. Contact Interstate-McBee for exact applications.

NEW PRODUCT RELEASE

SEPTEMBER 2020

CUMMINS®

KT / QSK Piston Kits

Interstate-McBee continues to lead the aftermarket for coverage of the High Horse Power Cummins® engine series. New piston kits for high output Cummins® KT / QSK engine applications are now available. These gallery cooled aluminum pistons feature diamond turned surfaces for precision sizing in these critical applications. The skirts feature graphite coating for improved scuff resistance. The crowns are hard anodized for the high cylinder pressures of these high power output applications. Contact Interstate-McBee for more details.

M-3803530	Kit - Piston
M-4090013	Kit - Piston

★ Interstate-McBee piston kits contain: piston body, piston pin, and retainers.

CUMMINS®

Electronic Sensors

Two new electronic sensors are now available for Cummins® applications. These sensors are engineered to keep the engine running at peak performance. Contact Interstate-McBee for details.
