Caterpillar® G3300 Cylinder Packs

Interstate-McBee is now offering **M-OR3661** and **M-OR3662 Cylinder Packs** for Caterpillar® G3300 engine applications. Each cylinder pack contains the basics of a standard cylinder kit with the addition of a new M-8N1984 Connecting Rod. Unlike the OE style cylinder packs, ours come completely assembled and ready for installation. This saves you an average of six hours labor and no core return issues or costs.

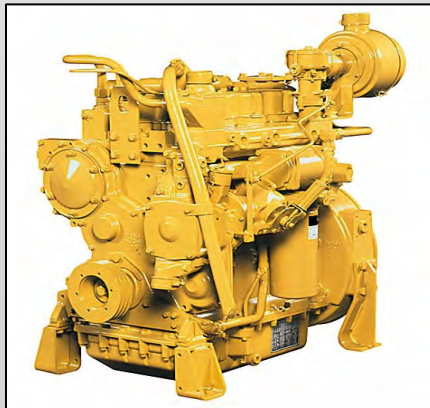

Features and Benefits of the Interstate-McBee Components:

- Induction hardened cylinder liners for reduced bore wear.
- Roll burnished flange radius for increased flange strength.
- Select liner o-ring seal materials to prevent coolant leakage and oil contamination.
- Automatic bore honing to control finish for fast break-in and oil control.
- Computer controlled piston machining to maintain proper clearances.
- Diamond turned pistons for machining accuracy and proper surface finish.
- Piston pins are hardened and tempered for greater strength and wear resistance.
- Piston rings made from alloy cast iron or steel where required and coated on the ring faces with wear resistant materials for extended product life.
- Tri-metal construction rod and main bearings for durability.

Our standard cylinder pack components include:

- Cylinder Liner
- Liner Seal Kit
- Piston
- Ring Set
- Piston Pin
- Pin Retainer
- New Connecting Rod
