

INTERSTATE-McBEE

"Quality Without Compromise"

ECOTIP[®] Superstack Injector

The ECOTIP Superstack technology is exclusive to Interstate-McBee injectors. This patented design provides superior fuel injection technology and couples it with high performance. ECOTIP Superstack injectors have a reduced "sac" area and our patented check valve. These unique designs allow us to ensure all the components are matched for enhanced performance.

These features lead to quantifiable benefits including:

- ◆ Fuel savings up to 3%*
- ◆ Reduction of smoke opacity up to 75%*
- ◆ Reduced emissions particulates by 44%*

Standard Nozzle

ECOTIP[®] Nozzle

Less fuel left over in nozzle at end of injection - less smoke, less wasted fuel

*Compared to standard injector design
