VOLVO®

D13 Cylinder Kits

Interstate-McBee is proud to announce major additions to our new line of replacement parts for Volvo® applications. Four new cylinder kits for some of the most popular D13 engine models are now available. These kits are used in a diverse range of on-highway and off-highway applications such as heavy-duty trucks, construction, and industrial use. The pistons as well as the full cylinder kits are now in stock and available for sale. Contact Interstate-McBee for more details and exact applications.

Brand New Kits Include:

- **Forged steel pistons** for strength and optimal performance in severe applications
- **Steel piston rings** (oil control and top ring) for added hardness and resistance to breakage in high power applications
- **Alloy cast iron liners** with unique and significant advantages in mechanical properties and abrasion resistance
- **Piston pins** hardened and tempered for maximum strength and wear resistance
- **Sealing rings** made from select materials

Part Number	Description	Application	Piston
M-20928630	Kit - Cylinder	D13	M-21041800
M-23468467	Kit - Cylinder	D13	M-21105177
M-22522229	Kit - Cylinder	D13	M-21170742
M-21330684	Kit - Cylinder	D13	M-21170742

VOLVO®

D13 Crankshaft Seals

Interstate-McBee is now stocking the new **M-21347087** Front Crankshaft Seal and **M-85108352** Rear Crankshaft Seal. These new seals feature a filled PTFE hydrodynamic laydown lip combined with a molded elastomeric outer diameter for reliable and long sealing life. Both seals are common to all D13 engines and are used in a multitude of applications and machine models. Contact Interstate-McBee for more details and exact applications.

Part Number	Description	Application
M-21347087	Seal - Front Crankshaft	D13
M-85108352	Seal - Rear Crankshaft	D13

NEW PRODUCT RELEASE

MARCH 2023

CUMMINS®

ISX - XPI Injector + Connector Kits

Interstate-McBee's Remanufactured Cummins® ISX - XPI Common Rail Injector Program continues to expand with the addition of new XPI connectors. Injectors and connectors can be purchased alone or as a combined kit which includes both parts. See chart below for details.

Three Purchase Options:

- Individual Reman Injector
- Individual Fuel Connector
- Kit Style: Injector + Connector

Injector	Description	Application	Connector	Combined Kit
R-2894920	Reman Injector	ISX15 - XPI	M-2894829	R-5579415
R-2872405	Reman Injector	ISX15 - XPI	M-2894829	R-5579417
R-2897320	Reman Injector	ISX15 - XPI	M-2894829	R-5579419
R-2872544	Reman Injector	ISX12 - XPI	n/a	n/a
R-2897518	Reman Injector	ISX12 - XPI	n/a	n/a

All remanufactured XPI injectors are built with **NEW NOZZLES** manufactured at our facility in Cleveland, Ohio.

CUMMINS®

ISX12 Connecting Rod Bearing

Interstate-McBee is now stocking new connecting rod bearings for our growing line of ISX12 replacement parts. Each bearing is made with tri-metal construction including tin plating for durability and scuff resistance. All Interstate-McBee bearings are made to exacting standards, ensuring a perfect fit and maximum longevity.

Part Number	Description	Application
M-4309174	Bearing - Connecting Rod	ISX 11.9

CUMMINS®

ISB/QSB Camshaft Position Sensor

Peak performance starts with accurate engine control. This replacement camshaft position sensor for 3.9L ISB/QSB applications will ensure proper position and timing for optimized efficiency. This part is in stock and available immediately. Call the experts at Interstate-McBee for details.

Part Number	Description	Application
M-4890190	Position Sensor - Camshaft	ISB/QSB 3.9L
