Inframe Kits Include:

- | | |
|-----------------|----------------------|
| - Pistons | - Cylinder Liners |
| - Head Bolt Kit | - Inframe Gasket Set |
| - Piston Pins | - Ring Sets |
| - Retainers | - Piston Pin Bolts |
| - Main Bearings | - Cam Bearings |
| - O-rings | - Rod Bearings |

Interstate-McBee also offers overhaul kits, re-ring kits, liner kits, piston kits, hardware kits, and more.

Features and Benefits:

- Durable, forged steel **pistons** for reduced wear and scuffing
- Induction hardened **cylinder liners** for decreased bore wear
- **Gasket set** components made from top grade materials for best fit and seal
- Premium coated top **fire ring** for durability
- Keystone groove **compression ring** which reduces blow-by and oil consumption
- **Oil pan seal** allows quicker access to engine assembly

Interstate-McBee's offering for popular S60 engine applications continues to grow as we add high quality replacement parts to our lineup regularly. Our range of products covers engine kits, fuel injection, gaskets and more. These parts go through an extensive qualification process and are covered by our industry leading warranty. Interstate-McBee is proud to be ISO 9001:2015 Certified with Design as well as AAR (American Association of Railroads) Certified.

TURBOCHARGERS

Interstate-McBee offers a full line of replacement turbochargers for Series 60 applications. All turbochargers are put through rigorous field testing and quality assurance to ensure customers a high quality product backed by warranty.

Features and Benefits:

- New turbos — no core exchange needed
- Competitively priced vs. reman versions
- Manufactured to exacting standards for quick and accurate replacement

REMAN INJECTORS

Interstate-McBee has been remanufacturing replacement fuel injectors for Detroit Diesel® applications since the 1940s. Today we offer a full line of products for Series 50/60 applications covering DDEC 1-4, including 14 liter options. Every product is engineered to the specific standards called for by the application and 100% tested to guarantee quality. Our reman injectors come with a complete set of new installation o-rings for proper seal between the injector and the cylinder head.

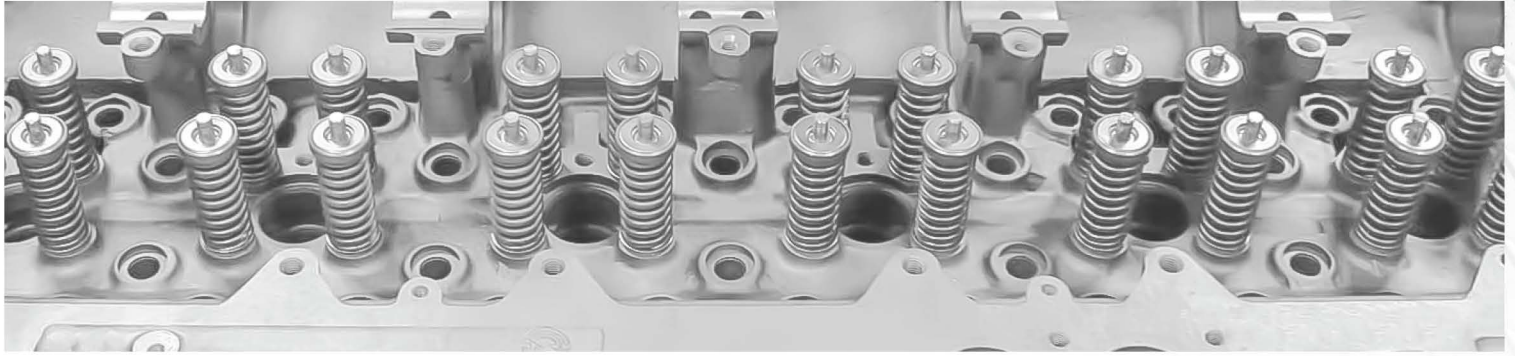

Features and Benefits:

- Built to meet top performance and durability standards
- Improved fuel economy and torque
- Remanufactured with current upgraded components
- O-rings and crush washer pre-installed for quick assembly
- Hours of dyno testing and months of field service to assure reliability

CYLINDER HEADS

In addition to the kits and components needed for your next Series 60 inframe overhaul, Interstate-McBee also offers replacement cylinder heads for these applications. These precision machined heads arrive fully loaded with new intake and exhaust valves, valve springs, valve guides, and injector tubes. Interstate-McBee cylinder heads are brand new castings meaning there is no need for a core return with purchase. Every brand new cylinder head is tested for quality and covered by a one year warranty.

GASKETS

Interstate-McBee houses a full gasket manufacturing facility at our world headquarters in Ohio, USA. Our custom gasket sets contain the necessary gaskets and seals to install cylinder heads, perform engine overhauls, and more. These components are manufactured from top grade materials and molded for an exact fit. Our head gaskets are constructed from multi-layer steel for superior sealing and durability. From single gaskets to custom overhaul sets, Interstate-McBee has you covered for Series 60 replacements.

Interstate-McBee's Gasket Offerings for S60 Applications Include:

- Cylinder head gaskets
- EGR mounting gaskets
- Fuel injection gaskets
- Oil cooler and pump gaskets
- Intake/Exhaust manifold gaskets

and more...
