

INTERSTATE-McBEE

Serving The Diesel And Natural Gas Industries For Over 75 Years

USA Manufacturing

Since 1947, we have been manufacturing parts such as gaskets, fuel injection components, and more at our Cleveland, Ohio facilities. Many of the additional parts we source come from factories around the USA ensuring quality that can fulfill a global demand.

Extensive Parts Catalog

Simply put, our inventory is immense. Our current stock of 25,000+ part numbers covers a wide range of applications from popular on-highway engines to the more obscure, niche markets and everything in between. We're constantly updating our website and our 15+ physical catalogs.

Worldwide Distribution

Interstate-McBee's vast distribution network, made up of hundreds of distributors in over 90 countries, enables customers to easily access the parts they need including hard-to-find specialty items and custom kits for specific engines.

Continuous Innovation

When it comes to product development, we've always taken a progressive approach, and it wouldn't be possible without our experienced team of visionaries. We are proud to maintain engineering teams for design, reverse engineering, custom solutions, and more to ensure we can meet the specific needs of the marketplace.

Quality Without Compromise

We prioritize quality in all aspects of our operation. World class manufacturing, engineering, and customer service come together to ensure that every part bearing the Interstate-McBee name meets our industry leading standards
