

INTERSTATE-McBEE

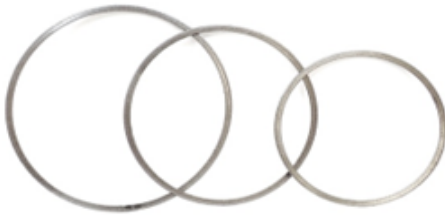

Diesel Particulate Filter (DPF) Assembly Components

In a continuing effort to respond to customer needs and requests, Interstate-McBee now stocks the most common service gaskets and clamps for Diesel Particulate Filter (DPF) assemblies used on Cummins® and Detroit Diesel® Mid-Range and Heavy Duty engine applications. Due to increasingly strict clean air regulations, these gaskets require replacement when servicing DPF assemblies. Not replacing these gaskets at the time of service can lead to lower efficiency and inspection failure.

Inlet Gaskets for Cummins® Applications	M-2880215
	M-2866337
	M-2866636

Outlet Gaskets for Cummins® Applications	M-2871451
	M-2871452
	M-2871453

Detroit Diesel® DD15 Applications
A-A6804910480
A-A4709970045

V-Band Clamps for Cummins® Applications	
Outlet V-Band Clamps	M-2871862
	M-2871863
	M-2871861
Inlet V-Band Clamps	M-2880213
	M-5290118

Unlike some competitive gaskets which are constructed from laminated gasket material, our USA manufactured gaskets use graphite composite with stainless steel mesh reinforcement similar to OEM construction.

Our Detroit Diesel® DD15 gaskets are manufactured from high quality stainless steel. Both types of specialized gaskets are designed to withstand the extreme temperatures generated in these devices and provide superior sealing.

Diesel Particulate Filter (DPF) Components

Cummins® produces five types of after-treatment Devices each containing four major components.

- Inline Horizontal
- Switchback
- Horizontal Side By Side
- Crossover
- Horizontal to Vertical

Type	Gasket	Clamp	Clamp OD	Engine	QTY/EA*	Engine	QTY/EA*
Inlet	M-2866337	M-5290118	6.5"	ISX/QSX	2		
Inlet	M-2880215	M-2880213	6.75"	ISX/QSX	2		
Outlet	M-2871451	M-2871861	10.28"	ISB/QSB	2	ISC/QSC	2
Outlet	M-2871452	M-2871862	11.78"	ISB/QSB	2	ISC/QSC	2 or 3
Outlet	M-2871453	M-2871863	13.3"	ISX/QSX	2	ISM/QSM	3
