

INTERSTATE-McBEE

NOW AVAILABLE

Injectors + Connector Kits for ISX-XPI

Interstate-McBee is proud to offer **Remanufactured Injector Kits for Cummins® ISX15-XPI Common Rail applications**. These replacement kits include both the remanufactured injector along with the necessary XPI connector for 15-liter ISX applications. To ensure best performance, these injectors are no longer sold without the connector. The replacement connector can still be purchased on its own. See chart below for details and contact the parts experts at Interstate-McBee for additional info.

ISX-XPI Injector

New XPI Connector

All remanufactured XPI injectors are built with **NEW NOZZLES** manufactured at our facility in Cleveland, Ohio. New nozzles provide optimal performance, better fuel economy and longer life.

Why buy this kit?

It is recommended to always buy a new XPI connector with your remanufactured injector. This helps prevent leakage and maximize performance, which is why we only sell the injector along with the matching connector.

KIT CONTAINS

Combined Kit	Description	Application	Core Code	XPI Injector	XPI Connector
