NEW PRODUCT RELEASE

OCTOBER 2025

JOHN DEERE®

4045/6068 Engine Rebuild Kits

After much planning and research, we're proud to announce more high quality overhaul kits for John Deere® engine applications. These kits are designed for 4045 and 6068 Tier 2 and Tier 3 Powertech E, 2-valve head engines. They feature the components needed for a full overhaul. Inframe kits and individual cylinder liner kits are also available for the same applications. For exact details, contact the diesel experts at Interstate-McBee.

Part Number	Description	Application
M-RE540226	Kit - Overhaul	6068
MCIFRE540226	Kit - Inframe	6068
M-RE532715	Kit - Overhaul	4045
MCIFRE532715	Kit - Inframe	4045
M-DZ109732	Kit - Cylinder Liner	6068/4045

CUMMINS®

QSK Cylinder Liner Kit

Interstate-McBee now offers cylinder liner kit **M-4309515** for Cummins® QSK MCRS engine applications. Engineered for use with steel piston configurations, these high boron alloy liners are built to withstand extreme operating conditions while maintaining superior wear resistance. Each kit includes the **M-3643605** liner, **M-AR70577** seal ring kit, and **M-3011884** liner insert, delivering everything needed for a precise, reliable installation.

Part Number	Description	Application
M-4309515	Kit - Cylinder Liner	QSK MCRS

CUMMINS®

ISB Lower Engine Gasket Set

New gasket set **M-5406071** has been added to our line of replacement products for Cummins® ISB 6.7L CM2450 applications. This collection of gaskets (many produced at our USA headquarters) covers all critical bottom-end sealing needs during complete overhauls including oil pan gasket, crankshaft seals, and other lower-engine seals tailored to the CM2450 architecture. Built for durability, these gaskets ensure a reliable seal every time.

Part Number	Description	Application
M-5406071	Gasket Set - Lower Engine	ISB 6.7

NEW PRODUCT RELEASE

OCTOBER 2025

CUMMINS®

ISX/QSX Re-Ring Kit

The **MCB4376168-3** kit from Interstate McBee is a pistonless in-frame solution designed specifically for Cummins® ISX/QSX non-EGR engine applications. Ideal for cost-conscious rebuilds, this comprehensive kit includes all necessary parts, hardware, gaskets, etc. needed for an engine rebuild when you want to keep your existing pistons. Precision-engineered and quality-assured, this new offering delivers the same performance and durability you expect from Interstate-McBee. Reach out to the customer service team for ordering and compatibility details.

Part Number	Description	Application
MCB4376168-3	Kit - Re-Ring	ISX/QSX, non-EGR

CUMMINS®

X15 - XPI Injector + Connector Kits

Interstate-McBee's Remanufactured Common Rail Injector Program continues to expand with the addition of a new Injector + connector kit for X15 - XPI applications. These replacement kits include both the remanufactured injector along with the necessary XPI connector for 15-liter engines. To ensure best performance, these injectors are no longer sold without the accompanying connector.
