ENGINE REBUILD KITS

Interstate-McBee is offering new rebuild kits for John Deere® 4045, 6068, and 6090 Powertech diesel applications. These high grade kits allow critical engine components to be replaced and are available as **inframe** or full **overhaul** kits.

Improving on previous offerings, the numbers listed cover up to Tier 4 engine models and are ideal for managing engine wear while minimizing downtime and labor expenses. A proper engine model and serial number verification is recommended to ensure compatibility.
